

Service Bulletin #191

December 29, 2017
Guardians of the Galaxy

Metal Bracket Protector 535-1850-00

Update is for early production Guardians of the Galaxy Pro games only (prior to serial number 275330)

If your game is missing the Metal Bracket Protector, contact Stern Pinball Inc. at 1-800-KICKERS or Parts.Service@sternpinball.com to receive service kit 535-1850-00.

All customers located outside of the US should contact their distributor.

Explanation:

In this game, Plastic #12 located just above the single drop target is exposed to ball hits caused by a rising drop target.

Procedure:

Installation of the Bracket Protector

1. Locate and remove the Phillips head screw securing the front left corner of Plastic #12.
2. Install the metal bracket protector under Plastic #12 making sure the right side of the bracket extends over the right flat rail. Align the hole in the left side of the bracket with the hole in Plastic #12.
3. Use the screw removed in Step 1 to secure Plastic #12 and the metal protector bracket to the post.
