

General

Subject: The S.A.M. CPU Bd. system with new USB.

STOP! Before you swap that S.A.M. system CPU Bd. into another game!

- After almost 6 years and 17 game titles later, the S.A.M. CPU Bd. # 520-5246-00 will no longer be used in future new game releases.
- This change to the new S.A.M. CPU Bd. with new USB was due to limited availability of the U49 USB processor IC.
- Although the new and original S.A.M. CPU boards look identical, the S.A.M. CPU Bd. with new USB is not backwards compatible with the original S.A.M. CPU Bd.
- Transformers (Pro) and all future (Pro) games will use the new S.A.M. CPU Bd. with new USB # 520-5246-02.
- Please view the Board Type Table below!

Game Name	CPU Bd. No.	I/O PWR DRV Bd. No.	Ug Pinball Boot ROM
World Poker Tour	520-5246-00	520-5249-00	V3.1
